Aleksandr Naumtsev

+7 917-623-03-97 | naumtsevaleksandr@yandex.ru | github.com/Pricolno

Education

- **Saint-Petersburg State University | Mathematics and Computer Sciences department** *St. Petersburg, Russia*
  Mathematics, Algorithms and Data Analysis | Bachelor's degree Sep 2020 - Aug 2024

  Relevant cources:
  - **Math:** Probability Theory, Mathematical Statistics, Machine Learning, Theoretical Computer Science, Linear Algebra, Discrete Mathematics, Differential equations
  - **Programming:** Algorithms and Data Structures, Databases, Operating Systems, Computer networks, C/C++, OOP, Python, Linux, Operating systems
  - **Other:** Computer Vision, Heuristic search

Achievements and Certificates

- Second-place in Data Analysis Contest by St. Petersburg State University and Yandex *March 2023*
- Master Candidate on codeforses
- First-Degree diploma in programming at the Lomonosov Olympiad *Sept 2020*
- Second-Degree diploma in mathematics at the Moscow School Olympiad *Feb 2020*

Projects

- **D* lite vs LSS-LRTA* | Python, Pygame, Matplotlib** *Nov 2022*
  Finding the shortest path in a dynamic environment
  - Implementation and analysis of search algorithms from articles
  - Visualization of their work
  - Testing and comparing results for different metrics
- **Protocol Detection Bot | OpenCV, Pytesseract, Telebot, GoogleApiclient, Oauth2client** *May 2022*
  Parsing and decoding the results of the Olympiad from paper
  - Parsing a table into individual cells
  - Number and word recognition
  - Telegram bot by picture sends results on google sheets
- **3D CV | Python, CV2, Numpy** *Jan 2022*
  Finding your Location by Video
  - Recognizing "corners"
  - Making tracks of special points on different photos
  - Calculating camera position changes
- **Data Advanced Structures | C, C++** *March 2022*
  Huffman, Linq, Smart pointers, BMP
- **Students House Bot | Python, pyTelegramBotAPI, PosgreSQL, vk-api** *Jan 2021*
  Dormitory social network
  - Search for people by room and vice versa
  - Sending a message to students by name/room
  - Subscribing to groups from VK and displaying notifications

Work experience

- ODDSCORP.com | Strategy Analyst *June - Aug 2022*
  Strategy development and analysis

Skills Summary

Languages: Python, C/C++
Python: socket, pygame, bs4, pyTelegramBot, requests, pytest, numpy, pandas, matplotlib, seaborn, scipy, sklearn
Databases: PostgreSQL, MongoDB
Developer Tools: Git, Docker/Docker-compose
Other: bash, tmux, valgrind, gdb

Social impact

- Teaching mathematics:
  Work as a camp instructor, checking olympiad papers and conducting intensives
